

*This image shows a 3x15 videowall in a circular arrangement made with 15 Hydra Stands*

# HYDRA STANDS

## Monitor Mounting System

*Hydra Stands with single 76" monitors in a 360° simulator*

## For Easy-to-Deploy, Seamless Videowalls

**Electric Picture's Hydra Stand** is a monitor mounting system for all applications. The stand can be used in Video Wall arrays as well as stand alone. Adjustability in all three dimensions allows for seamless video walls and ease of use. Hydra is able to support monitors from 45" to 86". This system can be used for curved simulators and videos walls in most locations.
